## DISCOVER WiSo

Tradition, innovation and an international perspective make the School of Business, Economics and Society in Nuremberg an excellent place to study. International partnerships and broad networks with regional companies play an important role in the interdisciplinary and applied education at WiSo. The School's outstanding reputation in teaching and research is firmly grounded in the expertise and commitment to quality of its faculty members. WiSo is consulted as a university think-tank and a sought-after partner in the Nuremberg Metropolitan Region.

## **ABOUT WiSo**

Key facts and figures on the growth and development of WiSo in Nuremberg.

#### Spin-offs and partners

0

**DISCOVER WiSo** 

## **HISTORY**

Looking back at WiSo's eventful and inspiring history from its foundation as the Nuremberg Commercial College in 1919 to its 100<sup>th</sup> anniversary.

### **RESEARCH FOCUS AREAS**

WiSo has a unique research profile in Germany and draws on perspectives in economics and social sciences alongside real-world experience in its innovative and expert approach to answering questions facing the economy, society and environment. Research expertise at WiSo is grouped into seven interdisciplinary research focus areas.

N

#### CHANGE IN THE WORLD OF WORK

Researchers working in this area use approaches from economics, sociology and psychology to study how the labor market and the world of work are affected by global developments - such as increased international distribution of work, increasing migration, and demographic, technological and organizational change - and how politics can react to them. In 2007, the Labour and Socio-Economic Research Center (LASER) was established to promote interdisciplinary research and exchange between stakeholders. A long-term strategic partnership in research and policy consulting with the Institute for Employment Research (IAB) and the Federal Employment Agency focuses on empirical research in labor market policy.

#### DIGITALIZATION AND INNOVATION

Digitalization and Innovation advances and investigates the role of digital technology in business and society. WiSo has extensive expertise in this field and a broad portfolio of internationally visible research and diverse innovation activities in the Nuremberg Metropolitan Religion. Important research fields include Industrial Internet of Things (IIOT) and smart factories, artificial intelligence in the workplace, service systems engineering, digitalization of services, participative innovation processes, digital business models and processes, digital marketing, IT security and digital governance. Strategic partnerships have been established with the Fraunhofer Institute for Integrated Circuits (IIS) and many well-known German industrial companies.

#### ENERGY MARKETS AND ENERGY SYSTEMS ANALYSIS

This research focus area looks at the influences of the economic, political and social environment on the development of the energy system. Research in this area includes transformation in the electricity and gas sectors, concepts for sustainable mobility and sector coupling and business models in decentralized smart energy systems. Researchers have been collaborating with engineers at Energie Campus Nürnberg (EnCN) since 2011 and with the Department of Mathematics in a collaborative research center on gas networks and markets since 2016. Strategic partnerships have been forged with the vision of implementing a safe, cost-efficient and sustainable energy supply involving many companies in the energy sector, including the association Energieregion Nuremberg e.V which was established in 2001.

#### HEALTH

This research focus area addresses health services research in the healthcare system from the choice of health insurance and determinants of individual health behavior to the incentive effects of reimbursement systems and the efficiency of various medical services, programs and structures. Researchers support healthcare institutions in optimizing their quality of care through economic evaluations and studies alongside public health programs. They work closely with Klinikum Nürnberg, Universitätsklinikum Erlangen, Siemens Healthineers and the newspaper Nürnberger Zeitung in the Nuremberg Metropolitan Region.

#### **CUSTOMER INSIGHTS**

STUDYING 2021/2022

Customer Insights investigates the influence of organizational conditions, psychological and economic influences on customer behavior. Big Data and qualitative methods from business analytics help researchers to gain a fundamental understanding of customer decisions. They analyze the effects customer decisions have on a company's success and identify potential areas for developing customer relationships. The research focus area is part of an extensive network of strategic partners from industry including Adidas, GfK and Siemens. Through strategic partnerships and events such as the German Marketing Excellence Day, customer insights research is of high relevance to practical applications.

#### TAX AND TAX POLICY

Tax and Tax Policy analyzes the effects of the tax system on taxpayers' decisions and develops proposals for tax legislation at the national, European and international levels with reference to empirical studies and behavioral economic analysis. Research in this area focuses on adapting the tax system to the reguirements of growing economic integration, the issue of tax evasion and the impact of digitalization on tax structures, administration and policy. An inter-university cooperation has been established within the framework of the International Graduate Program Evidence Based Economics and researchers benefit from exchange with the Nuremberg Chamber of Tax Advisors and the larger tax firms in the Nuremberg Metropolitan Region.

#### **INSURANCE AND RISK**

Insurance and Risk examines the impact of developments in technology and society such as digitalization, individualization, and demographic trends on the roles, tasks, and policy of private and social insurance. Active networks are maintained between science, business and politics in Forum V, the North Bavarian Institute for Insurance Science and Economics, an affiliated institute of FAU, in which, among others, the four sponsoring insurance companies (ERGO Direkt, HUK-Coburg, NÜRNBERGER Versicherungen, uni-Versa) as well as associations (BWV Nordbayern-Thüringen) are intensely involved.

## BACHELOR'S PROGRAMS

Studying a Bachelor's program at WiSo offers a great degree of flexibility, an international perspective, and a wide range of subjects. Students may also choose their own specializations. Bachelor's programs familiarize students with academic knowledge and teach them specialist methods that they are able to apply in practice. Graduates are ideally prepared for careers in global and future-oriented sectors.

## BACHELOR'S PROGRAM IN BUSINESS STUDIES

The Bachelor's program in Business Studies prepares students for careers in global and future-oriented sectors. The aim of the program is for students to acquire academic knowledge and learn specialist methods in the field of business studies and explore how these are applied in practice. Bachelor's degree programs at WiSo in Nuremberg have a strong international focus and offer one of the widest ranges of subjects in German-speaking countries.

#### SKILLS

- Academic knowledge of business and economics
- Applying business and economics methods in practice
- Key qualifications including language, IT, presentation and team skills

#### **PROGRAM STRUCTURE**

The Bachelor's degree program is divided into two sections: Students must complete compulsory modules worth 80 ECTS in the first semesters. At the start of the third semester, students may choose specializations and elective modules that match their interests. During the final stage of the program, students prepare their Bachelor's thesis. Students studying a Bachelor's program at WiSo may choose to study part of their degree in another country at one of over 140 international partner universities.

#### **COMPULSORY MODULES**

In the first semester, students gain a broad understanding of business environments in the modules Firms, Markets, Economies and Entrepreneurs and Businesses and also have the opportunity to participate in corporate strategic planning simulations. Later in the program, students learn more about operational contexts in the business administration modules Principles of Marketing, Financial Accounting and Manufacturing, Logistics, Procurement. In the modules Macroeconomics, Microeconomics, and Economy and Government, students gain fundamental knowledge in economics to better understand businesses and their wider economic contexts. Two further modules in the Foundations of Public and Civil Law and Economic Law give students insights into the legal aspects of business. Data Science is also a compulsory subject and teaches students essential knowledge in statistics, econometrics and data analysis. Students are also introduced to how data science and machine learning can be used as a basis for data-driven business models. All students must take modules from the interdisciplinary Studium Integrale section, including Language Courses, Mathematics, Accounting and a Key Qualifications Module from the second semester.

#### SPECIALIZATIONS

From the third semester, Business Studies students can choose from five specializations: Business Administration, Economics, Information Systems and Business Education I and II. Each specialization is divided into core and elective modules. Core modules teach fundamental knowledge for the specialization. For example, students specializing in Business Administration can study *Managerial Accounting and Controlling* or *International Business Management*, and students specializing in

N

STUDYING 2021/2022

Economics can take modules in International Economics or Public Sector Economics. Students have a number of opportunities to pursue their individual interests or skills in the specialization modules. 🗐 mk

#### REQUIREMENTS

- Basic understanding of mathematics
- Proficiency in a foreign language (e.g. English)
- Interest in studying or working abroad

#### CAREER PROSPECTS

- Advisory and consulting services
- Management

#### **POTENTIAL EMPLOYERS**

22

- Industry, trade and service companies
- Chambers and associations

»The Bachelor's program in **Business Studies** offers students a solid foundation in business and the opportunity to specialize in one of five areas.«

BACHELOR'S

Ň

STUDYING 2021/2022

#### BACHELOR'S PROGRAM IN BUSINESS STUDIES SPECIALIZATION: BUSINESS ADMINISTRATION

The Business Administration specialization covers business operations in the private sector and in public institutions. The aim is for students to gain a sound knowledge of the management and administration of companies. The degree program focuses on the integration of content relevant to business operations such as production, logistics or investment and financing. In the Shanghai Ranking in 2021, FAU was rated among the best 10 universities in Germany for Business Administration.

#### COMPULSORY MODULES

Students take core modules in Managerial Accounting and Controlling, International Business Management, and Investment Theory and Finance. Students also study the module Integrated Management and can choose to attend a business plan seminar, a case study seminar or a seminar focusing on sustainability management.

#### **ELECTIVE MODULES**

Students have a broad choice of elective modules in their specialization. They must take modules in Business Administration worth at least 25 ECTS. Further elective modules worth 20 ECTS may be chosen from the entire range of modules offered at WiSo. Although students are not required to take related modules, they may choose to study modules from a specific area of study such as marketing or sustainability management worth 20 ECTS each. A list of all modules is provided in the module handbook.

#### SKILLS

- Theoretical and practical knowledge of business administration
- Independent problem-solving

#### CAREER PROSPECTS

- Planning and analysis
- Management and consulting

#### POTENTIAL EMPLOYERS

- Companies and local authorities
- Insurance companies
- Auditing and tax firms
- Business consultants

Subject area

#### **BACHELOR'S PROGRAM** IN BUSINESS STUDIES SPECIALIZATION: BUSINESS EDUCATION I

The specialization in Business Education I focuses on the teaching methodology and orga-

nizational aspects of company training and professional further education. Students learn important concepts in business and economics in the core modules of the program. The program also prepares students with the knowledge required for graduate study in a Master's program with the aim of achieving the right to teach at vocational schools.

#### CORE MODULES

Students acquire knowledge in personnel development as well as teaching and seminar planning in the module Foundations of Economic and Business Education. In the module Professional Training and Development, students are introduced to managing professional development. Within the Business Education Seminar, students can choose to specialize in e-learning, education evaluation or teaching business education. Finally, students take modules in Presentation and Moderation Techniques and Practical Studies.

#### **ELECTIVE MODULES**

Students study elective modules in the field of business education and can choose further modules specializing in education and human resources. They must also take two elective modules modules in the areas of Managerial Accounting and Controlling, Investment Theory and Finance, as well as two free elective modules. Free elective modules allow students to develop an individual profile through advanced study in the context of human resources or other professional fields. 🗐 ys

30

STUDYING 2021/2022

#### **BACHELOR'S PROGRAM** IN BUSINESS STUDIES SPECIALIZATION: BUSINESS EDUCATION II

32

STUDYING 2021/2022

Business Education II has a similar structure to Business Education I. The main difference is that Business Education II includes a Second Subject which students can continue to study in the Master's program in Business Education. After students have completed studying their second school subject at both Bachelor's and Master's level, they qualify for teaching in both business studies and their second subject at vocational schools.

#### CORE AND ELECTIVE MODULES

The program has the same scope as Business Education I (180 ECTS) as the second subject in Business Education II replaces the key qualifications offered in Business Education I. Instead of taking elective modules in the specialization area, students take the compulsory module Specialization in Second Subject.

#### SECOND SUBJECTS

Modules for second subjects are offered by WiSo, the Faculty of Humanities, Social Sciences, and Theology and the Faculty of Sciences. This means that courses may be held in Nuremberg at Lange Gasse, Findelgasse or Regensburger Straße but also in Erlangen. The following second subjects are currently offered:

- English and international studies
- French and international studies
- Spanish and international studies
- German or German as a professional language
- Protestant religious studies
- Sport
- Mathematics
- Information systems
- Social studies
- Ethics •

#### SKILLS

- Theoretical and practical knowledge of business studies
- Theoretical and practical knowledge of business education

## **BACHELOR'S PROGRAM IN** SOCIOECONOMICS

winter semeste

The Bachelor's program in Socioeconomics is aimed at students who are interested in issues of relevance to economics and society as a whole. It allows students to combine courses in economics and the social sciences in a flexible way. The program teaches students methods of data collection and statistical analysis of the data collected through its empirical focus. After the orientation phase, students may choose between the specializations Behavioral Science and International.

#### SKILLS

- Economic reasoning
- Sociological analysis
- Analyzing and interpreting data scientifically
- Analyzing international relations and politics
- Team work and presentation skills

#### **PROGRAM STRUCTURE**

During the orientation phase in the first year of the program, students are taught the foundations of economics in business administration and economics, sociology, empirical social research and data science. In the fourth semester students may choose between the specializations Behavioral Science or International. Students may also develop an individual profile by choosing elective modules from both specializations. The compulsory modules amount to 95 ECTS and the remaining 85 ECTS must be obtained in elective modules within the specialization area and by completing the Bachelor's thesis. Students studying a Bachelor's program at WiSo may choose to

study part of their degree in another country at one of over 140 international partner universities.

#### **COMPULSORY MODULES**

In the first four semesters, students acquire fundamental knowledge in socioeconomics. business, economics and empirical methods. During the first two semesters, students are introduced to the foundations of socioeconomics in the modules Sociology I and II, International Politics I and II, Introduction to Mass Communication Research, Social Psychology, Firms, Markets, Economies and Companies and Entrepreneurs. They learn different perspectives on the interaction between the economy and society. The program continues with the business and economic modules Principles of Marketing, Microeconomics and Foundations of Public and Civil Law.

Students receive comprehensive training in statistical methods of empirical social research and data science, for example in the modules Empirical Social Research I and II or Data Science. Statistical methods are covered intensively in the Data Science modules Data Evaluation and Statistics.

#### **SPECIALIZATIONS**

Behavioral Sciences is primarily concerned with empirical social research. It includes the modules Empirical Methods and Statistics. Foundations of Social Policy, Personnel and Organization I and Introduction to the Media System.

The International specialization prepares students for careers in an international field. It includes the modules Global Governance, International Business Relations, Globalization and Internationalization. European and International Law, International Communication

STUDYING 2021/2022

and two foreign languages. As well as their specialist subjects, students cover topics of relevance to business or economics in more detail. 🗐 jg

#### » Socioeconomics is a fascinating program with excellent teaching focused on the

interface between business and society combined with in-depth methods training and an applied approach.«

STUDYING 2021/2022

#### TARGET GROUP

- Interest in current developments in society and politics
- Interest in economic and social research and problems
- Interest in international relations and policy

BACHELOR'S PROGRAMS

38

STUDYING 2021/2022

#### **BACHELOR'S PROGRAM IN SOCIOECONOMICS SPECIALIZATION: BEHAVIORAL SCIENCE**

Behavioral Science is ideal for students who want to better understand the interaction between business and society. They explore issues of relevance to society, acquire theoretical knowledge from a social sciences, economic and psychological perspective and learn how to verify the accuracy of theories using data. The ability to collect, evaluate and interpret these data are key skills which students learn during the Behavioral Science specialization.

#### CORE MODULES

The core modules in the specialization are

edge in advanced scientific methods in the module Empirical Methods and Statistics. They learn methods used to test hypotheses and how to use statistics software. In the module Foundations of Social Policy, students consider the framework and institutions of social insurance. Furthermore, they gain insights into the field of human resources from a behavioral sciences perspective in the module Personnel and Organization. Introduction to the Media System analyzes the structures of the German media system.

worth 20 ECTS. Students deepen their knowl-

#### **ELECTIVE MODULES**

In the advanced area of the specialization, students can choose flexibly from modules worth a total of 60 ECTS. 20 ECTS must be completed in the study area of Socioeconomics. This includes a number of modules, for example Inequality Research, Advanced Empirical Methods or Global Governance. Further elective modules worth 25 ECTS may be chosen from the entire range of modules offered at WiSo.

PROGRAMS

#### **BACHELOR'S PROGRAM IN SOCIOECONOMICS SPECIALIZATION:** INTERNATIONAL

This specialization is aimed at anyone who would like to work for an international organization in the future. It focuses in particular on challenges facing international politics and intercultural economic relations. The main focus of this specialization is to give students the skills they need to solve problems in an intercultural team.

The core modules in the specialization are

#### CORE MODULES

worth 40 ECTS. In the module Global Governance students are introduced to institutions and stakeholders in international socioeconomics. Students consider specific countries and learn how bilateral and multilateral agreements affect trade relationships in the module International Business Relations. Both modules are taught in English. The module International Communication familiarizes students with structures, processes and problems in international communication. Alternating seminars on politics, media and society are offered in the module Globalization and Internationalization. For an introduction to international law, students take the module Introduction to European Commercial Law and can choose between International Business Law or International Trade Law. Students continue to learn the foreign language from their second semester and take an additional foreign language.

#### **ELECTIVE MODULES**

Students can develop an individual profile from a flexible choice of elective modules worth 25 ECTS. Modules may be combined freely from the program or students can specialize in other areas of study such as Latin America or Sustainability Management. 📃 jg

#### SKILLS

- Understanding the challenges facing global companies

STUDYING 2021/2022

## **BACHELOR'S PROGRAM IN INFOR-**MATION SYSTEMS

Information Systems deals with the design, development, implementation, deployment and use of IT systems in companies and the networked economy. It is an interdisciplinary degree program combining business administration with computer science. In addition to business-related subjects, it also involves technical and research topics. Students learn important methods and tools, such as modeling processes and information in companies, gaining strategic knowledge from large amounts of data and designing and managing innovations using information technology.

#### SKILLS

- In-depth business and technical knowledge
- Conceptual and analytical thinking
- Independent and goal-oriented approach
- Project management
- Presentation skills

#### **PROGRAM STRUCTURE**

Students take compulsory modules worth 75 ECTS covering theoretical and practical knowledge in the core areas of business administration, information technology and information systems. Students may choose compulsory elective modules worth 60 ECTS to develop an individual profile, particularly in the following three sections of information systems: Data and Knowledge, Digital Business and Processes and Architectures and Developments. Modules in the area of business and

information systems are taught at WiSo in Nuremberg and computer science modules are based at the Faculty of Engineering in Erlangen.

#### COMPULSORY AND ELECTIVE MODULES

In the first two semesters, students gain fundamental knowledge in information systems, business and computer science, forming a theoretical basis for practical studies in the following semesters. Students gain comprehensive knowledge in the three areas of business (for example Production, Logistics, Pro*curement*), information systems (for example Business and Information System Engineering, Data Science: Machine Learning and Data Driven Business) and computer science (for example Conceptual Modeling, Software Development in Large Projects). The combination of disciplines prepares students with in-depth knowledge for a leadership position in business or research.

#### **METHODOLOGICAL SKILLS,** SEMINARS AND REFLECTION

Seminars throughout the program allow students to develop their interpersonal skills. Students can choose elective modules in methodological skills, particularly in the area of data science, allowing them to develop an individual specialization and study profile. At the end of the program, students apply the knowls edge they have gained to writing their Bachelor's thesis.

**PROGRAM STRUCTURE** 

velop an individual profile by taking elective

modules. All students are required to study abroad during the program and they may ac-

quire up to 60 ECTS at a foreign university.

Compulsory modules are organized into the areas of International Business. International Economics and International Politics, Law, and Society. International Business includes modules such as International Management. which deals with business administration in an international context. International Economics modules such as Microeconomics or Macroeconomics introduce economic methods and key concepts in international economics, addressing causes and effects of international trade and currency issues. International Politics, Law and Society extends students' perspectives beyond business by considering institutions relevant to international issues. Students expand their subject knowledge with methodological skills in statistics and data analysis in the Tools section. In the Reflection section, students become familiar with the current international business environment and can practice intercultural skills. They learn how to write papers and presentations independently and work effectively in groups.

## **BACHELOR'S PROGRAM IN** INTERNATIONAL **BUSINESS STUDIES**

The Bachelor's degree in International Business Studies (IBS) is a perfect start into a professional career in international business. The program provides students with the essential knowledge for analyzing and understanding international business. The distinctive international perspective of the program reflects the growing importance of multinational operations and emphasizes the comparative study of business strategies and policies. The program consists of compulsory and elective modules in a variety of fields, such as international business, international economics and international politics, all of which are conducted in English. Admissions are limited to approximately 105 students per academic year.

#### SKILLS

- Understanding business administration in an international context
- Knowledge of economics, statistics and quantitative analysis
- Analyzing specific problems related to international business and multinational operations
- Using practical business methods and instruments for solving international management tasks
- Intercultural competence
- Fluency in business English
- Advanced knowledge of at least one other foreign language

STUDYING 2021/2022

## BACHELOR'S PROGRAM IN INTERNATIONAL ECONOMIC STUDIES

The Bachelor's degree in International Economic Studies (IES) is a perfect start into a professional career as an economist, in business, government or academia. The program provides students with the essential knowledge for understanding and analyzing the economy and economic policy. The distinct international perspective of the program reflects the growing importance of international economic integration and emphasizes the comparative study of economic policies. The program consists of compulsory and elective modules in a variety of fields, such as international economics, international business and international politics, all of which are conducted in English. Admissions are limited to approximately 45 students per academic year.

#### SKILLS

- Understanding of the basic principles of economics
- Ability to conduct quantitative analyses with suitable statistical and econometric methods
- Analyzing specific problems related to economics and economic policy in an international environment
- Intercultural competence through an integrated semester abroad
- Fluency in business English
- Advanced knowledge of at least one other foreign language

#### **PROGRAM STRUCTURE**

During the first two semesters, the assessment phase, the students predominantly take courses from the compulsory area. In the following four semesters of the Bachelor's degree the teaching content of the first two semesters is expanded and consolidated. From the fourth semester onwards, students increasingly choose elective modules comprising a variety of topics in economics. Students can acquire up to 60 ECTS as part of the compulsory study abroad. There are over 140 partnership agreements with universities in more than 40 countries on all five continents. The final Bachelor's thesis verifies the acquired technical and academic skills of the students.

#### COMPULSORY MODULES

The compulsory program includes the three core areas, namely International Economics, International Business and International Politics, Law and Society.

Courses in International Economics, such as Microeconomics. Macroeconomics and European Economic Integration introduce basic economic concepts and methods, as well as key concepts in international economics, addressing causes and effects of international trade and currency issues. The knowledge acquired in the introductory courses is expanded by lectures such as International Economics, Development Economics and Empirical Economics. International Business courses such as International Management, provide the basics of business administration in an international context. International Politics, Law and Society extends the economic focus including a view on institutions relevant for international issues.

STUDYING 2021/2022

The subject-specific perspective is supplemented by the combination of core area 52

Tools devoted to statistics and data analysis. The core area Reflection broadens the perspective to different aspects in the current international economic environment. From an academic perspective, students learn how to contribute to debates through own papers and presentations, but also by responding to the work of peers.

#### **ELECTIVE MODULES**

Students must take 60 ECTS in elective modules, at least 20 ECTS of which have to be earned at a university abroad. A further 25 ECTS are chosen from modules in international economics, international business and international politics. The Bachelor's thesis is based on independent work on a given problem in a chosen subject area. 🗐 mp

## MASTER'S PROGRAMS

After achieving their Bachelor's degree, many students choose to continue their studies with a Master's degree. The ten Master's programs at WiSo prepare students for a career in science, business or public organizations by combining innovative study concepts with applied research and scientific knowledge. Graduates are well-equipped for facing the challenges of the modern working world and academic careers.

- 56 Master's program in Labor Market and Human Resources
- 60 Master's program in Economics
- 64 Master's program in Finance, Auditing, Controlling, Taxation
- 70 Master's program in Health Management and Health Economics
- 74 Master's program in International Business Studies
- 78 Master's program in International Information Systems
- 82 Master's program in Management
- 86 Master's program in Marketing
- 90 Master's program in Socioeconomics
- 94 Master's program in Business Education

## MASTER'S PROGRAM IN LABOR MARKET AND HUMAN RESOURCES

This Master's program examines the many aspects of the labor market, the working world and human resources from different perspectives. Students focus on topics relevant to the economy and society, answering questions in labor market policy and transferring research results to practice. The program has a strong empirical and interdisciplinary approach. Students acquire subject-specific knowledge and skills in several disciplines of economics and social sciences.

**PROGRAM STRUCTURE** 

sorv modules.

#### **COMPULSORY MODULES**

In the first semester of the Master's program, students acquire knowledge and skills that are fundamental to further study in compulsory modules. Due to the interdisciplinary nature of the program, students must take compulsory modules in all disciplines. This includes modules in labor market economics, HR management and sociological and psychological aspects of the labor market and human resources. In addition, there is a focus on the teaching of econometrics.

#### ELECTIVE MODULES

In the second semester, students complete an interdisciplinary seminar dealing with current questions in the world of employment and choose five compulsory elective modules (worth 5 ECTS each) from the following nine modules: Labour Market Institutions and Organizations, Personnel Economics, Economics of Social Policy, Microeconometrics and Machine Learning, Collection and Structures of Data in Labor Market Research, Change Management, Electronic Human Resources Management, Applied Methods: Research and Statistical Methods in Business and Organizational Psychology and Multivariate Time Series Analysis.

In the third semester, students can choose six elective modules (worth 5 ECTS each) from different disciplines depending on their personal interests and professional goals. These modules also prepare students for writing their Master's thesis. Elective modules are currently offered in the following areas:

In empirical labor economics, students can take a Seminar in Empirical Labor Market Research and a Literature Seminar in Current Issues in Labour Economics. In sociology of labor markets, students can choose from a Seminar in Labour Market Sociology and a СЛ

STUDYING 2021/2022

MASTER'S PROGRAMS

Seminar in Labor Market and Household Decisions. In organizational psychology, students can advance their knowledge in a Lecture, Tutorial and Seminar in Organizational Psychology. In business psychology, students can choose from a Theory and a Project Seminar. Students who wish to specialize in macroeconomics can choose the modules Macroeconomics: Business Cycles and Labor Markets: A Macroeconomic Perspective.

Students also have the option of choosing up to two modules (worth 5 ECTS each) from the elective modules at WiSo (for example Employment Law).

Students who wish to study abroad can integrate up to two study abroad modules (worth 5 ECTS each) in their program. The study abroad modules ensure that achievements obtained abroad for which there is no equivalent course offered at FAU can still be recognized. 🗐 se/ar

MASTER'S

PROGRAMS

STUDYING 2021/2022

## MASTER'S PROGRAM IN ECONOMICS

Economics is a modern Master's program with an international perspective and provides students with profound knowledge in economics. It is aimed at students with a strong interest in economics and independent academic work. Small groups allow students to work closely with professors and researchers in classes and seminars. Further, students can connect directly with research at WiSo by pairing with early-career researchers through the mentoring program.

#### SKILLS

- Extensive knowledge of modern economics
- Active and passive skills in empirical and quantitative methods
- Qualification for independent academic work
- Development, communication and implementation of problem-solving capacities

#### **PROGRAM STRUCTURE**

The program consists of four semesters with a total of 120 ECTS. The first semester includes compulsory modules worth 30 ECTS in the core fields of economics. In the second and third semester students specialize by individually choosing 60 ECTS from a broad range of subjects within five different fields of specialization. They write their Master's thesis in the fourth semester. We encourage and support students who want to study abroad for up to two semesters at a partner university through the recognition of ECTS credits earned abroad. Core subjects are taught in English. Elective modules are taught both in English

and German, although advanced knowledge of German is not required.

#### **COMPULSORY MODULES**

In the first semester, students acquire in-depth knowledge in economics with six compulsory modules taught in English: Mathematics for Economists, Microeconomics, Game Theory, Macroeconomics: Growth Theory, Macroeconomics: Business Cycle and Applied Econometrics. In Applied Econometrics, students learn to apply their methodological knowledge to empirical work and to interpret estimation results using the software STATA. Students lacking sufficient knowledge in econometrics or statistics are advised to take the voluntary leveling course in Econometrics. The course begins before the official lecture period, usually during the last week of September.

#### **ELECTIVE MODULES**

Students choose at least ten elective modules within the five specialization areas and up to two modules offered from the WiSo catalog. Each specialization field includes a broad list of related modules.

Students who specialize in Labor Economics not only analyze the labor market but also study theoretical models and applied empirical research tools to examine labor policies and to develop policy recommendations. Modules in this area include, for example, *Labor and Personnel Economics* and *Labor Market Policy*. The specialization in Macroeconomics and Finance deepens knowledge in areas from monetary policy to financial banking. Students explore how to bridge theoretical macroeconomic models and applied empirical methods in modules such as International Finance and *Multivariate Time Series Analysis*. The specialization Public Economics comprises the analົ

STUDYING 2021/2022

MASTER'S PROGRAMS

Behavioral Economics or Development Economics. The specialization in Energy Markets focuses on theoretical and empirical analyses of energy markets and related policy issues. Modules in this specialization include Quantitative Methods in Energy Market Modeling, Empirical Environmental Economics or Advanced Industrial Organization. Students who specialize in Health Economics study the supply and demand of medical services as well as the behavior of agents in this market and derive implications for the health care system, for example in the modules Supply of Medical Services or Applied Empirical Health Economics.

ysis of the economic consequences of tax

systems and government expenditures, public finance and public policy. Students apply mi-

croeconomic theory together with new econo-

metric approaches to evaluate policy mea-

sures in modules such as Public Economics

62

#### » The program offers a modern and international approach to economics and prepares graduates as economists for scientific and advisory professions.«

#### **SELECTION CRITERIA**

- Academic degree with above-average grades in economics, mathematics, the social sciences, engineering or related disciplines
- Sufficient English skills (at least level B2 of the CEFR)
- Further accomplishments and gualifications, e.g., internships, language skills and international experience

MASTER'S

PROGRAMS

Elective modules

## MASTER'S PROGRAM IN FINANCE, AUDITING, CONTROLLING, TAXATION

This degree program delivers comprehensive knowledge and skills in the four areas of finance, auditing, controlling and taxation (FACT) with an interdisciplinary approach. Students acquire academic knowledge with a high level of practical relevance. In a ranking of degree programs in Germany focusing on auditing, Manager magazine listed FAU in seventh place among the best universities in Germany for the FACT Master's program (April 2020). Reputable companies support the program by providing lecturers on teaching assignments and practical seminars, and influential businesses are also among the friends and supporters of the program. Through a broad range of elective modules, students can develop an individual and flexible professional profile.

#### SKILLS

- Applying business knowledge, compiling reports independently and interpreting practical research
- Identifying and analyzing complex problems based on experience
- Recognizing errors, developing new procedures, demonstrating and justifying measures for improvement
- Theoretical knowledge for state examination for auditors or tax advisors

#### PROGRAM STRUCTURE

The Master's degree program is a full-time program that lasts four semesters. It is possible to start the degree program in either the winter or summer semester. The program consists of compulsory modules (30 ECTS), elective modules (60 ECTS) and the Master's thesis (30 ECTS). Students have the opportunity to complete a semester abroad and credits awarded by foreign universities can be recognized as counting toward the program.

A large number of lecturers and partners from industry support the program. Among the supporters and friends of the program are: Baker Tilly, DATEV, Deloitte, Ecovis, ERGO, EY, HLB Hußmann, HUK-Coburg, KPMG, Munkert & Partner, NÜRNBERGER Versicherung, PwC, Siemens, Siemens Healthineers, Sonntag & Partner, Rödl & Partner, uniVersa Versicherungen and Nürnberger Steuergespräche.

#### **COMPULSORY MODULES**

Students must take six compulsory modules worth 5 ECTS each. This includes the modules: Corporate Management and Capital Markets, Controlling of Business Systems, Risk and Insurance Theory, Tax Accounting, Company Taxation and Accounting for Consolidated Financial Statements. Compulsory modules establish a common interdisciplinary foundation with content from the four FACT areas.

#### **ELECTIVE MODULES**

With a broad range of elective modules, the program is highly flexible. Students can either choose a generalist approach by studying content from all four FACT areas or focus on one area to develop a specialist profile. Students must take elective modules worth 60 ECTS from the listed modules which amount ດ

STUDYING 2021/2022

# MASTER'S PROGRAM IN INTERNATIONAL BUSINESS STUDIES

International Business Studies is a modern Master's program that provides students with a comprehensive understanding of the complexity of international business. Students acguire the skills they need to succeed in an international environment. Special attention is given to the variety of approaches that firms choose to adapt their international operations to the diversity of laws, business practices, and cultures across the globe. Throughout the program, students develop essential communication and intercultural skills. A range of business language courses reflects the international focus of the program and prepares students for a successful career in an international setting.

# SKILLS

- Analytical skills
- Communication skills
- Intercultural competences

## **PROGRAM STRUCTURE**

The program consists of 120 ECTS credits leading to a Master's degree (M. Sc.) and can be completed in two years. Students take 60 ECTS in compulsory modules and 30 ECTS of elective modules and complete their Master's thesis. Practical elements include company visits, as well as lectures and workshops with executives from leading companies. Students who wish to benefit from the university's extensive network of international partner universities may study abroad for up to two semesters. The language of instruction is English.

# **CORE COURSES**

In the core courses, students focus on understanding and analyzing international operations and making decisions related to foreign market entry and management strategies. Students acquire a broad understanding of the field through core modules from the following areas: Environment of international business. Foundations of international management, International strategic management, International functional management, International information management, International finance and change management, Soft skills, International corporate sustainability and International relations. Two modules are offered for each area. In total, students must take 60 ECTS from a total of 90 ECTS. Students have a degree of freedom in choosing modules, however, we recommend that all students complete both modules in Foundations of International Management.

# **ELECTIVE COURSES**

Elective courses in area studies allow students to specialize in a specific region: English speaking countries, Romance countries, Asia or Europe. English speaking countries comprises modules on advanced economies and emerging markets, globalization processes and issues in international trade. Romance countries focuses on Latin American and French economy and society and offers a wide range of courses addressing current issues. Asia incorporates management strategies, corporate governance issues as well as a wider choice of modules from other faculties. Europe offers students perspectives on European integration, media systems and law as well as insights into the internationalization of medium-sized enterprises. The language of instruction in the elective modules depends

Elective courses

# MASTER'S PROGRAM IN INTERNATIONAL INFORMATION SYSTEMS

International Information Systems (IIS) combines knowledge in business and economics with in-depth knowledge in computer science and conveys insights into a wide variety of approaches of both disciplines, in addition to interdisciplinary skills. The program is taught at WiSo and the Faculty of Engineering in German and English. International information systems prepares students for professions that require knowledge and skills in both management and IT.

# SKILLS

- Interdisciplinary knowledge
- Intercultural and team skills
- Conceptual and analytical thinking
- Independent and goal-oriented approach
- Project management
- Presentation skills

## **PROGRAM STRUCTURE**

In the first semester, students with an undergraduate degree in business and economics acquire preliminary knowledge in computer science. Students who have obtained an undergraduate degree in computer science take modules in business and economics. Both groups of students are familiarized with the preliminary knowledge and skills required for the compulsory modules in Information systems and Informatics. The compulsory area of the program includes compulsory modules worth 15 ECTS and compulsory elective modules chosen from Data & Knowledge, Digital Business and Architectures & Development worth 15 ECTS. Students have the opportunity to study abroad in the third semester. In the

fourth semester, students can complete their Master's thesis with the support of an international company or partner university.

## **COMPULSORY MODULES**

In addition to preliminary knowledge taught in the first semester, students investigate internationalization theories and aspects of strategic management or skills in data modeling, programming and software development depending on the subject of their previous degree. Students take three modules each in the compulsory areas of Information Systems and Informatics, with a broad range of modules available.

Information Systems deals with the application of information and communication technology in companies and the networked economy such as innovation and value-added management, service and process management, business intelligence or IT and project management. Students have a great deal of freedom of choice within the areas, allowing them to focus thematically and build a knowledge base for further study.

Informatics deals with the fields of data and knowledge management, as well as software and product development. Data and knowledge management includes topics such as data mining, data visualization and artificial intelligence. In software development, students learn fundamental knowledge in agile software development, software architectures and process-oriented information systems.

# COMPULSORY ELECTIVE MODULES

In this part of the program, students may choose the elective modules they wish to study and how they would like to combine these modules. Modules worth 15 ECTS credits are available in the areas of Information Systems and Informatics as well as in the exÕ

STUDYING 2021/2022

# MASTER'S PROGRAM IN MANAGEMENT

This degree program provides students with a comprehensive understanding of management tasks and instruments from a market-oriented and resource-oriented perspective. They are taught how value creation and market-oriented strategies at companies can be influenced by various management processes. At the same time, students learn how to solve problems in management practice by applying scientific methods. An international approach is a key aspect of modern management and students are offered an international perspective throughout the degree program. In addition, WiSo offers partnership programs with top universities in other countries.

# SKILLS

- Applying management concepts in practical scenarios
- Quantitative skills
- Applying specialist knowledge
- Team skills
- Presentation and negotiation skills

# **PROGRAM STRUCTURE**

The degree program has a standard duration of four semesters and includes compulsory modules (45 ECTS), elective modules specializing in professional fields (45 ECTS) and the Master's thesis (30 ECTS). While students learn comprehensive perspectives in management throughout the compulsory modules, they can choose to specialize in one or more applied fields of management by taking elective modules. This specialization allows students to develop a skills profile that is suitable for their future profession. A significant number of the modules in this program are taught in English.

# **COMPULSORY MODULES**

Compulsory modules are divided into two sections in this program. In the first section, students obtain an in-depth understanding of the purpose and instruments of market and resource-oriented management in modules such as *Business Strategy*, *Managerial Finance and Accounting* or *Technology* and *Innovation Management*. This section gives students a comprehensive perspective of management.

In the second section, students can apply their knowledge in practice and may choose from a wide range of seminars in each of the modules: Applied Management Techniques, Case Studies and Projects in Management, Teamwork, Presentation and Negotiation Skills and Advanced Methods of Management Research.

# **ELECTIVE MODULES**

In order to prepare for specific management tasks, students can develop a professional profile by choosing at least four elective modules in one of the seven specializations.

Strategic Management and International Business focuses on tools for strategic management and the challenges facing global companies, for example in the module *Change Management*. Value Creation and Digital Transformation focuses on future technology and value creation processes in the context of digital transformation in the modules *Industrial Management* and *Management of Industry 4.0*. **8** С

# MASTER'S PROGRAM IN MARKETING

Marketing is an interdisciplinary program. Alongside the focus on marketing, students have the option to study a range of topics in the areas of data science, statistics, information systems, psychology and communication science. This is complemented by the inclusion of current marketing trends such as digital marketing, e-commerce and sustainability management. The main aim is for students to acquire a comprehensive understanding of issues that are specific to markets and marketing. The interdisciplinary knowledge that students acquire is complemented by practical topics. The practical aspects of the program include collaboration with partners in industry, the use of case studies in courses and assistance finding internships at companies.

# SKILLS

- Comprehensive knowledge of marketing and market research activities and methods
- Solving problems in marketing using scientific methods
- Knowledge and skills in data science, statistics, information systems, psychology and communication science
- Practical experience gained through expert talks, applied case studies and internships
- International perspectives through modules taught in English and partnerships with top universities abroad
- Awareness of current developments in marketing including digital marketing, data science, e-commerce and sustainability

## **PROGRAM STRUCTURE**

The program offers students a comprehensive introduction to topics in marketing worth 20 ECTS at the start of the program covering Product and Price Management, Sales and Communication Management and Marketing Theory, Building on this knowledge, students may choose between three areas of specialization: Marketing Research with Data Science, Marketing Research or Marketing Management. The program offers an extensive range of compulsory elective modules and students must complete 60 ECTS from the areas of Data Science, Consumer Behavior, Management, Computer Science and Sustainability. In the final semester, students write their Master's thesis.

# **COMPULSORY MODULES**

Students are familiarized with different approaches in marketing research focusing on theoretical knowledge in marketing and consumer behavior. They also acquire knowledge in specific areas of marketing. Product and Price Management introduces students to fundamental aspects of product management. innovation management, managing existing products and brand management. They learn the conceptual and theoretical foundations of price management and consider demand, cost and competitive pricing. Sales and Communication Management deals with issues in communication strategy, budget management, designing marketing campaigns and evaluating their effectiveness.

The module also deals with core aspects of sales strategy and developing sales processes, relationships with sales partners, key accounts and sales activities. Students also take a practical *Seminar in Marketing* to comMASTER'S

PROGRAMS

80

plement their theoretical knowledge by exploring current developments in marketing research in a conceptual or empirical project.

# COMPULSORY ELECTIVE MODULES Students can choose elective modules to de-

velop their professional profile with over 70 modules from the areas of Data Science, Consumer Behavior, Management, Information Technology and Sustainability, as well as further interdisciplinary modules offered at WiSo. In Marketing, modules such as Service Marketing, Digital Marketing, Consumer Relationship Marketing, Personal Selling and International Marketing prepare students for professional roles. Methodological modules in Statistics, for example Panel and Evaluation *Methods* deliver the foundations for a career in market research. These are complemented by modules from the Data Science specialization, which consider the use of digital and other data, for example Data Science or Multivariate Time Series Analysis. Elective modules which may change each semester are also offered in the Consumer Behavior specialization. In Management, students can choose elective modules that focus on specific tasks in management, for example Industrial Management. Technology and Innovation Management or Business Ethics and Corporate Social Responsibility. Students may also choose to take interdisciplinary modules, for example in foreign languages or practical seminars in cooperation with partner companies such as Adidas, GfK, Rehau, Procter & Gamble or Siemens.

# **SELECTION CRITERIA**

# MASTER'S PROGRAM IN SOCIOECONOMICS

MASTER'S PROGRAMS

06

STUDYING 2021/2022

Socioeconomics is an interdisciplinary program which offers a rare opportunity to study a combination of subjects related to business and social science. The Master's program focuses on conveying the empirical, methodological and theoretical knowledge for conceptual and advisory tasks in industry, research and administration. Special emphasis is placed on the collection, analysis, and interpretation of empirical data during the program.

# COMPULSORY MODULES

At the start of the program, students take compulsory modules worth 60 ECTS which deliver fundamental knowledge in socioeconomics. The compulsory modules are divided into four sections that deal with the foundations of social sciences, methodological skills and economics, as well as a project seminar which lasts for two semesters. The project seminar is an opportunity for students to conduct an empirical research project in small groups.

# **ELECTIVE MODULES**

Students may choose elective modules offered in social sciences and economics worth a total of 20 ECTS as their specialization. They must choose four modules worth 5 ECTS each. Students have the opportunity to strengthen their skills in sociology, psychology, communications science, economics, social policy and health economics.

They may also choose to study modules worth 10 ECTS from all WiSo modules and all modules in the Master's program in Sociology offered by the Faculty of Humanities, Social Sciences, and Theology.

# SKILLS

- Developing proposals for business and public sector projects that are supported by empirical data
- Extensive knowledge of contemporary sociological and economic analysis
- Advanced applied and methodological skills

# **PROGRAM STRUCTURE**

At the start of the Master's program, students acquire fundamental theoretical knowledge in sociology, psychology, communications science, economics and empirical methods. In the second and third semester, all students take a comprehensive project seminar in which they focus on a topic in small groups as part of an empirical research project. Students may also choose between two specializations in Education, Work and Human Resources or Media, Markets and Social Research to develop a professional profile. Students write their Master's thesis in the fourth semester. » The Master's degree program in Socioeconomics is an impressive and diverse interdisciplinary program which focuses on the interactions between business, society and the individual.«

# MASTER'S PROGRAM IN BUSINESS EDUCATION

4 semesters German Starts in winter semester Starts in study possible

Business Education combines content from business and economics, business education, and the humanities and social sciences. Students may choose between two specializations to develop their own professional profile. The first specialization focuses on business education, business and economics. The second specialization combines modules in education, economics and business education with a second subject such as Information systems, English, French, Spanish, German or German as a professional language, Social studies, Mathematics, Sport, Protestant religious studies and Ethics (from winter semester 20/21). The second specialization may only be chosen by students who have completed modules worth 25 ECTS in their second subject as part of their Bachelor's program in Business Studies. It may not be taken by students from other subjects.

# SKILLS

- Planning, evaluating and reflecting on teaching
- Analyzing, evaluating and designing educational concepts considering diversity, language and inclusion
- Preparing and conducting empirical research in business education
- Developing strategies for solving current problems in business education
- Advanced subject knowledge

# **PROGRAM STRUCTURE**

subject

In the first two semesters, students take the modules *Instructional Design for Vocational Education and Training I and II, Empirical Research in Vocational Education and Training and Diversity, Language and Inclusion as Challenging Aspects of Vocational Education and Training. Students develop their knowledge in <i>Practice Studies* and the Business Education elective module. Each semester, further compulsory or elective modules related to the degree program or modules from the second subject are also covered in the study plan. Students complete their Master's thesis in the fourth semester.

In addition to increasing their knowledge, the degree program aims to promote students' personal development.
Students should be able to identify their own strengths and weaknesses, to plan, pursue and evaluate their own professional and personal development.«

MBA

Starts in winter semester

# SKILLS

- State of the art knowledge of management theory and practice
- Analytical and problem-structuring methods
- Analyzing problems and selecting alternative solutions
- Leadership, model and motivational behavior
- Ability to communicate and work in an intercultural team

The Executive MBA program at FAU will be entering its 18th year in winter semester 2021/2022 and has an excellent reputation for supporting and accelerating graduate careers. The program, which focuses on general management, is limited to 25 students per year and prepares students for a challenging role in an international career or broadens their existing management experience. Diversity is key to the success of the program and with handpicked candidates from different backgrounds, training, age groups, sectors and professions there is plenty of opportunity for exploring new perspectives and participating in inspiring discussions. Through this exchange, students often generate innovative strategies and creative solutions during attendance days that they can apply directly to their professional work. Graduates may use the prestigious title Master of Business Administration (MBA) which is an internationally sought-after qualification.

# **PROGRAM STRUCTURE**

The MBA is a professional development Master's program and starts each year on October 1 for a duration of 18 months. Classes are held during the first 14 months of the program. During this time, compulsory classes are conducted on 27 weekends: on Fridays from 3pm until 8pm and on Saturdays from 8am until 6pm. The introductory module Management Fundamentals is primarily targeted at non-financial candidates and aims to equip students with the economic knowledge required in the program. Core content is organized into the three modules Leading, Acting and Analyzing.

Leading focuses on the fundamental tasks of responsible management, examining business from a holistic perspective in terms of strategy, leadership and controlling.

Acting focuses on optimizing value added through corporate management in the core areas of marketing, operations and innovation.

Analyzing deals with analysis and controlling methods relevant to management. This involves analyzing and evaluating added value

# SELECTION CRITERIA

- Academic degree (at least a Bachelor's degree)
- At least one year of professional experience or long-term professional experience after completing a graduate degree
- Good knowledge of German and English
- Motivation, commitment, initiative and resilience

and deriving actions for effective corporate management.

Students also have the opportunity to take part in a team-building trip to a European partner university, worldwide business field trips. personality assessments, company visits and informal lounge chats with prominent executives. After classes have finished, students have four months to complete their Master's thesis. Depending on their career goals students can choose three pathways to completing their thesis:

- Job Development: Practical project
- Business Development: Business plan
- Doctoral Degree: Academic thesis

# **SKILLS**

- Knowledge and skills in marketing, sales and digital business
- Interpersonal skills including presentation methods
- Leadership skills

# **PROGRAM STRUCTURE**

The program begins in October each year and lasts for one and a half years. Compulsory classes are held throughout the year, generally every two to three weeks on Fridays and Saturdays. Examinations are conducted throughout the program and methods of assessment may include written examinations, written assignments, case studies or presentations. Students earn a total of 120 ECTS including the recognition of professional skills and the program consists of compulsory, elective, practical and specialization modules. While compulsory modules ensure a uniform level of fundamental knowledge in the field of strategic and operational market development, elective modules deepen theoretical knowledge and skills acquired at the start of the program. Compulsory modules include topics such as managing marketing assets (customer relations and brands), managing digital marketing and sales activities, as well as data analytics. In practical modules, students apply what they have learned to reinforce their knowledge and skills. At the end of the program, students take specialization modules which consist of the Master's thesis and seminar and focus on solving a business problem in their chosen specialization of either marketing or sales. Graduates are awarded a Master of Science degree which is recognized internationally. Specializations (Marketing or Sales) are indicated on the degree certificate. 🗐 af/db

# BENEFITS

- Recognized academic degree (M. Sc.) and pathway to studying a doctoral degree
- Greater opportunities for career development
- Earlier career entry and more practical than a full-time Master's degree
- Higher earning potential
- Alumni network in many sectors

# MASTER'S PROGRAM IN DIGITAL BUSINESS

German

Starts in Profe winter semester deve

Professional development

onal MDBA

Ē

Digital Business is a professional development Master's program that prepares managers for the opportunities and challenges of digitalization and data science in a globally competitive field. Graduates are awarded the title Master of Digital Business Administration (MDBA). In 18 months, students learn important digital skills in the areas of Management, Computer Science, and Security and Law through practical and interactive study. All modules were developed exclusively for the MDBA program and focus entirely on digital business. Digital strategy, leadership and transformation processes are key aspects of the program, as are the digitalization of business models, value added chains and processes. Further areas covered in the program are digital technology,

artificial intelligence, Internet of Things, Big Data analytics, digital sales and marketing, IT security and law, all of which are taught by experts from academia and industry.

# SKILLS

- In-depth and interdisciplinary knowledge in management, digital technology, computer science and data security and law
- Management, business and digital skills
- Ability to manage digital transformation processes

# **PROGRAM STRUCTURE**

Students become familiar with developing digital strategies, key concepts of digitalization and strategic management in the module Digital Strategy and Leadership at the start of the program. In the following module, Digital Transformation and Projects, students learn how to implement digitalization projects in practice. It also covers how to deal with problems in the implementation process from technical and usability perspectives. In Digital Technologies and Application students explore individual technologies and learn concepts, methods and approaches for developing user-friendly solutions. As it is becoming common practice for companies to utilize data that are too large or complex for conventional database systems, methods and technologies for processing, integrating and analyzing big data are explored in the second methodological module Business Analytics and Data Science. Subsequent modules focus on specific functions of digital business, for example IT Security and Law covers the foundations of IT security, cryptography and IT law. Digital Innovation and Business Models deals with digital concepts for innovation management. Students apply this knowledge by working in teams to design, present and evaluate their own creative and innovative ideas. Digital Processes and Services explores the field of process mining for data-supported business process analysis. In Digital Marketing, students learn concepts, approaches and tools for marketing and sales in a digital age.

Through current case studies, training sessions, simulations and a digital field trip, students have plenty of opportunity to acquire practical skills. Students can work on a practical business problem of their own choosing for their Master's thesis. Three classes are held for each module on Fridays and Saturdays, allowing students to complete their degree and earn the title MDBA alongside their professional work.

# **SELECTION CRITERIA**

- Academic degree worth 180 ECTS (Bachelor's program and above)
- At least one year practical experience during or after the first degree by the start of the MDBA program
- Good knowledge of English and German
- Strong application (application form, letter of motivation, CV, certificates, proof of relevant experience)

# BENEFITS

- Recognized academic degree (MDBA) and pathway to studying a doctoral degree

Healthcare is a growth sector in Germany and many professions in this sector require highly specialized training. As resources must also be used efficiently in the healthcare sector an interdisciplinary education and specialist knowledge of business and economics are becoming more important. This degree program is designed especially for healthcare professionals who do not have a background in economics (e.g. doctors, pharmacists, nursing specialists, medical engineers). It aims to provide specialists and managers in all areas of healthcare with advanced knowledge of business administration through a distance learning degree program for working professionals that leads to the degree Master of

# **PROGRAM STRUCTURE**

The degree program includes 60 scripts that are spread over semesters one to three. Each script takes one week to complete. In the first and second semester, participants are introduced to economic theory and business administration and gain a broad overview of the healthcare sector. In the third semester, participants gain in-depth knowledge in specific areas of healthcare and may choose two specializations from outpatient care, inpatient care and pharmaceutical management. Participants complete their Master's thesis in the fourth semester. 🗐 ус

# MASTER'S PROGRAM IN HEALTH AND MEDICAL MANAGEMENT

Master Health and Medical Management

(MHMM) is a distance learning professional

development program based on selected con-

tent in medicine that is suitable for healthcare

professionals. The aim for graduates is not to

be able to practice medicine, but to gain the

specialist knowledge they require to under-

stand medical procedures. Students gain an

understanding of principles and related con-

through a fundamental understanding of diag-

nostics, therapy and theoretical knowledge of

The program covers fundamental aspects of

medicine, diagnostics, therapy and pharma-

cology over four semesters. Participants learn

from scripts that reflect the current state of

scientific knowledge and clinical experience.

As the program focuses on theoretical knowl-

edge of medicine, practical exercises are not

covered. In each of the first three semesters,

participants must complete a three-day atten-

dance phase at the School of Business, Eco-

nomics and Society. Participants complete

their Master's thesis in the fourth semester.

vantages and disadvantages.

medicine and pathology.

STUDYING 2021/2022

MASTER'S PROGRAMS

Health Business Administration (MHBA).

# SERVICES

When students need guidance or support, the School of Business, Economics, and Society has a broad range of services that can help. The International Office and the Language Centre can assist students in preparing for stays abroad. The Career Service and Alumni network (afwn e.V.) support students with practical advice in professional contexts. Sharing ideas and experiences is an essential part of these activities.

- 112 Language courses
- 114 Study abroad
- **116** Report from a semester abroad
- 118 WiSo Career Service
- **120** Mentoring program for Bachelor's students
- **121** WiSo Coach program
- 122 Buddy program
- **123** WiSo alumni association

# LANGUAGE COURSES

Students at WiSo benefit from professional language training taught by native-language tutors in several languages. Language courses at WiSo are offered by the Foreign Languages Department in Nuremberg (FAN) which is part of the Language Centre.

SERVICES

language courses at different levels. However, English is only offered at higher levels as applicants are expected to have previous knowledge of English from their school education. Course levels are indicated based on two certification frameworks.

The Language Centre offers a broad range of

# **UNICERT®**

COURSE LEVELS

UNICERT® is an international certification framework for foreign language training at universities. It ensures that course levels can be compared and that students can demonstrate their language skills by acquiring a certificate.

# CEFR – COMMON EUROPEAN FRAME-WORK OF REFERENCE FOR LAN-GUAGES

The CEFR is a skills framework adopted by the Council of Europe that promotes student mobility and makes comparing foreign language skills across Europe possible.

# EXISTING LANGUAGE SKILLS FROM SCHOOL

The level of language skills learned at school depends on how long students have learned a language and their individual ability. The Foreign Languages Department in Nuremberg offers placement tests in the last week of the lecture-free period and the first week of the lecture period to assess individual language skills and ensure students take courses at the right level. Students need to take a placement test before registering for a course on: www.sprachenkurse.fau.de

- UNIcert® Basis (A2 CEFR):
- Basic knowledge of the language
  UNIcert® I (B1 CEFR):
- Advanced basic knowledge of the language
  UNIcert® II (B2 CEFR):
- UNIcert® II (B2 CEFR): Advanced knowledge of the language
- UNIcert® III (C1 CEFR): In-depth knowledge of the language
   UNIcert® IV (C2 CEFR):
- Not offered at WiSo

- Chinese
- EnglishErench
- FrenchItalian
- Ranan
   Portuguese
- Portugue:Russian
- RussianSpanish
- SpanishSwedish
- Turkish
- German as a foreign language

# PLACEMENT TEST AND LANGUAGE COURSE REGISTRATION

After students have taken a placement test to determine their individual language skills, they can register for language courses online.

- Students can register for English and Spanish courses via www.studon.fau.de
- For all other languages, students can register on www.sprachkurse.fau.de

# FOREIGN LANGUAGE TRAINING IN DEGREE PROGRAMS

In the *Foreign Languages* module, Bachelor's students take two courses worth two SWS each or one course worth four SWS in a foreign language chosen from Chinese, English, French, German as a foreign language, Italian, Portuguese or Spanish. Although students can only take English at UNIcert® III level, they may choose any level for all other languages. International Business Studies students must also take courses in a second foreign language.

guage at any level worth 4 SWS. Socioeconomics students taking the International specialization must also take courses in another foreign language worth 8 SWS at any level. In addition to the compulsory *Foreign Languages* module, students may also take language courses as a key qualification and can choose from all language courses available from the FAU Language Centre in Erlangen and Nuremberg. In these language courses, students can develop their language skills for studying, professional work and international qualifications.

STUDYING 2021/2022

# **STUDY ABROAD**

Asia, America, Africa or Europe – with approximately 140 partner universities. WiSo offers students exciting opportunities to complete part of their program in another country.

# GOING ABROAD

SERVICES

Exchange students spend a semester abroad at a partner university. This option tends to be less expensive and requires less individual planning, as tuition fees are usually not charged. Exchange students must choose from the 140 FAU partner universities. It is also possible to take part in a direct exchanges organized by the faculties, but these may be restricted by subject. Free movers can also apply to a university of their own choice (usually subject to tuition fees) and must organize all administrative matters and learning agreements themselves. Although this option reguires long-term planning and individual commitment, students have even greater freedom in choosing study destinations.

# DURATION

To allow adequate time for taking subject courses, learning a language and sharpening intercultural skills, students are recommended to spend one to two semesters abroad.

# WHEN TO GO

Bachelor's programs are designed for students to study abroad in the fifth or sixth semester. Studying abroad in the second year of the program is only recommended in exceptional cases, such as studying in southern hemisphere countries where the academic year begins in March. At European universities, studying abroad in the summer semester can lead to examination conflicts due to different lecture periods.

# **RECOGNITION OF EXAMINATION ACHIEVEMENTS**

Learning agreements must be concluded with program coordinators at both universities before students study abroad for the degree program coordinator to recognize examination achievements on the student's return.

# **ORGANIZATIONAL ASPECTS OF** STUDYING ABROAD

Students may be granted a leave of absence for studying abroad. However, if students obtain more than 25 ECTS in this period, the semester abroad will count as a semester that they have studied at university. A maximum of 60 ECTS can be recognized. Students are not required to pay tuition fees at FAU during a leave of absence and this also applies to most partner universities.

# **APPLICATIONS AND** FURTHER INFORMATION

The International Day is held at the beginning of November. During the event, WiSo and the International Office offer talks, workshops, alumni chats and an information exchange to help students organize their stay abroad. Experts and coordinators also give students tips on planning a stay abroad, exchange programs, internships, double degrees, scholarships, BAföG for studying abroad and language tests. A series of talks is also held in the summer semester. Applications for studying abroad can be submitted to the International Office from mid-December.

# LAST MINUTE PLACES

At the beginning of the summer semester, students may still apply for remaining places: these last-minute places are awarded by the International Office via the procedure described.

# **140 PARTNER** UNIVERSITIES ON **ALL CONTINENTS**

# A SEMESTER IN THE METROPOLITAN CITY OF BEIJING

Birsen spent her semester abroad at the University of International Business and Economics (UIBE) in Beijing. Although she is originally from Bulgaria and her studies in Germany are already more or less an international experience, she opted to broaden her horizons even further and chose Beijing as her first preference.

SERVICES

16

»My decision to study in China was strategic and well thought-out«,

says Birsen: the 22-year-old student was fascinated to learn how people live in the capital of the world's fastest developing economy. After making it through the applications process ahead of the competition, Birsen travelled to China at the end of August and started her unusual adventure. At first she didn't speak a word of Chinese, which made it challenging to get used to the new environment. As there were no spaces available in the university accommodation, Birsen was allocated a room in a hotel that collaborated with the university. »The semester was an unforgettable experience in which a completely new world opened up for me. It has made me a much stronger person. Through international encounters, I have gained a much better understanding of our diverse and globalized world.«

# »In the beginning, it was strange to think that I would be living in a hotel room for the next few months«,

says Birsen. "But actually things worked out pretty well". Although the university and general organization seemed chaotic and intimidating, Birsen quickly managed to settle in. In the university context, tenacity and perseverance were skills that she had to learn quickly. After all the organizational work had been done, life became considerably easier. Birsen opened a bank account, installed WeChat and was able to get fully involved in the life of Beijing. Her Chinese lessons were exciting, proactive and practical. In the classroom, there was much discussion about the history and situations of various countries. Birsen used her time outside the classroom to discover culture, art and cuisine. She found heritage sites including temples, monuments and the

Great Wall of China particularly impressive. Birsen also volunteered as part of the 70th anniversary of diplomatic relations between the Republic of Bulgaria and the People's Republic of China. Being part of an international university setting allowed Birsen to develop intercultural skills and empathize with others. Life in Beijing helped Birsen to leave her comfort zone and immerse herself in a completely new and foreign world.

**CAREER DAY** Whether you are new to WiSo or about to graduate - the Career Day has something to offer for everyone! Every year in the summer semester, both regional and international companies give presentations at the event and provide information on the topics of job applications and successful career entry. On Career Day, professionals are invited to share their professional experience by giving talks and taking part in workshops. The extensive program also includes individual CV checks and expert lectures. Students also have the opportunity to make direct contacts with potential employers. At the second Digital Career Day 2021, attractive employers such as Allianz, Baker Tilly, DATEV, Deloitte, Hartmann AG, Henkel, HUK-Coburg, IRi, KPMG, Umwelt-Bank, PwC and Rödl & Partner took part in lively discussions. In the digital Career Lounge, students who were interested in individual companies could have one-on-one discussions with HR managers who were on hand to answer their questions about entry-level opportunities and exchange contact details. Taking part is always worthwhile for students because everyone has to apply for a job or internship at least once in their lives.

# **MENTORING PROGRAM** FOR BACHELOR'S STUDENTS

Bachelor's students have ample opportunity to learn from professional experience in a mentoring program that is especially designed for them.

20

STUDYING 2021/2022

Launched in 1998, the mentoring program is far more extensive than an internship or traineeship. For one semester, company representatives become practical mentors for students, mediate contacts with executives, involve students in project work, advise on the choice of study priorities and career issues, and later supervise practical or study-related work. By taking part in the program, students can work together with companies and organizations to solve real-world problems during their studies. Companies and students can decide flexibly when and for how long they want to work together in the mentoring program. At the start of the program, the Career Service organizes a kick-off event followed by a networking exchange where students have the chance to meet professionals and discuss arrangements for a mentorship. That evening,

- FURTHER INFORMATION The application period starts at the beginning of the summer semester.

company representatives and students hand in their wish lists with the names of the applicants or companies of interest to them. Based on the wish lists, the Career Service assigns the students to mentors so that they can finalize the details of the mentorship including expectations, duration and activities, as soon as possible. The mentoring program ends with an official closing event in October.

# WiSo COACH PROGRAM

The WiSo Coach program creates a partnership between Master's students and alumni who have successfully established themselves in their profession.

"Everyone can benefit from the WiSo Coach program, whether they want to learn more about themselves or the right professional field for them," says Renate, a Master's student in International Business Studies. Renate took part in the WiSo Coach program for career planning advice and tips on how to get her career off the ground. Renate's mentor is an HR professional employed by the city of Nuremberg, an area which matches Renate's professional interests. "I am even more interested in this profession now and plan to do an internship," says Renate. During the mentoring relationship, Renate also discussed her application documents with her mentor. She particularly wanted to know how to market her own strengths and weaknesses in a job application and to learn more about how assessment centres work. "You rarely get the opportunity to ask an experienced HR manager for their opinion on job applications," says Renate.

- FURTHER INFORMATION The application period starts at the beginning of the summer semester. ()www.coach.career.fau.de
- Michael Otto, Hanna Walch
- E-mail: wiso-coach@fau.de

# **HELP STARTING OUT**

The WiSo buddy program offers new students the opportunity to network with contacts from higher semesters and get answers to guestions they may have about studying at WiSo.

22

Where are the student restaurants? How can I activate my library card? When do I have to register for exams? New students have plenty of questions. WiSo set up a clever initiative to help students get started way back in 2009: from the simulation game onwards, 25 to 30 students share a buddy from a higher semester, who can answer their questions and show them around the university and the city. The project was set up at the request of students who wanted more help starting out at WiSo. New students can now ask for help and stay in touch with their buddies and fellow students via e-mail, telephone, and online platforms such as StudOn and facebook. Buddies regularly organize group meetings where students can meet up in a casual and relaxed atmosphere and share what's on their mind. "We hold meetings both at the university and in nearby pubs or bars, depending on the occasion. At the beginning, we mainly talk about organizational things like examination registration and other areas of academic life where students might need help. "Once we've got that out of the way, there's lots of time to relax, socialize and get to know new faces," says Julian Grümmer, who coordinates the program. Buddies remind new students of important dates and also share their own experiences of studying at WiSo. In the past, buddies have helped new students draw up study

new students: "This gives you an idea of what to expect and which examinations might be a little tricky, when to start learning, and how to learn." Many students also saw the monthly meetups for all groups as a great opportunity to get to know other students and the city better. In the winter semester 2020/21, the hybrid buddy program helped new students to find their way around another virtual semester. New students starting out on their first online semester were able to ask guestions and meet other students in Zoom meetings arranged especially for them. Feedback from previous buddy programs is reviewed to offer students the best possible start into academic life in future years. Positive feedback and critical suggestions from the buddies and new students are taken into account equally.

# **CONTACTS FOR LIFE**

Graduating is just the beginning of building a successful career. Those who have a diverse network of contacts to fall back on are definitely at an advantage in their professional life. WiSo welcomes all graduates to its alumni association (afwn e.V) which students can even benefit from before finishing their degree.

The association has around 1.300 members including individuals and companies affiliated with WiSo. It was set up to promote sharing ideas and experience at the School of Business, Economics and Society and during events such as the WiSo Career Day. The alumni association also contributes to the biannual graduation ceremonies, quest lectures and promoting young researchers in the WiSo coach program for Master's students. Anyone who would like to connect with alumni during and after their studies and support WiSo may become a member of the alumni association. Memberships are free of charge for students and graduates for up to one year after completing their studies.

» Maintaining contacts through alumni associations is easy, informal and inexpensive. WiSo's alumni association benefits students, alumni and companies in the region«

# DISCOVER NUREMBERG

It's important not to miss out on enjoying life while you are studying in Nuremberg. The city has an unmistakable flair and many unforgettable experiences in store for both culture enthusiasts and night owls. With a medieval ambience and modern urban lifestyle, Nuremberg is an ideal setting to enjoy life outside of university.

126 Why WiSo?

**128** Entrepreneurial culture at WiSo

130 Exploring Nuremberg

**134** Living in Nuremberg

136 Student's representatives and student initiatives

# WiSo?

The WiSo campus is located right in the center of Nuremberg in one of the most important economic regions in Germany. With more than 20 degree programs, WiSo has one of the most diverse range of subjects in German-speaking countries. Studying at WiSo is an excellent choice for studying Bachelor's or Master's programs, full-time or part-time or as a working professional. The short distance to the center of Nuremberg makes it easy for students to gain a foothold in their new home, find friends and discover what's on throughout the region. Anna Aumer began studying Business Studies at WiSo in the winter semester. Although she could have chosen two other locations, the 24-year-old opted for Nuremberg. And she hasn't looked back since.

# WHAT DO YOU THINK ABOUT THE **RANGE OF SUBJECTS OFFERED** AT WiSo?

I decided that I wanted to specialize in Business Education, but at the beginning everything was a bit overwhelming. Fortunately, everything new students needed to know was explained in the first week in the simulation game. Having a study plan that is tailored to my needs is very helpful when I have to sign up for classes.

# WISO HAS PLENTY OF OPPORTUNITIES FOR STUDENTS TO GET INVOLVED. ARE YOU PLANNING TO JOIN ONE **OF THE INITIATIVES?**

At the beginning of the semester, student associations and initiatives including FSI, AIESEC for stays abroad and RCDS introduced themselves and invited us to take part. It all sounded very interesting, and I would also like to get involved in the second semester once I have settled in.

# HOW DOES THE LOCATION OF THE WiSo CAMPUS BENEFIT YOU?

WiSo is right in the middle of the city. A campus university has the advantage that you don't have to travel far between faculties and departments. Being close to the city center means that you can get on with other things after you finish studying for the day, without having to go far.

# WHAT ATTRACTS YOU TO THE NUREM-**BERG METROPOLITAN REGION?**

I like the university, the city and the lifestyle here. I didn't want to go to Munich because the city was too big for me. I don't feel like I'm missing out here. I am very much looking forward to the summer, the city parks like Wöhrder Wiese - and the Berg festival in Erlangen, which I have heard a lot about. During the simulation game week, the buddies also showed us some of the nightlife in Nuremberg. Of course, I am also looking forward to that.

STUDYING 2021/2022

DISCOVER NUREMBERG

STUDYING 2021/2022

20

# **ENTREPRENEURIAL SPIRIT**

WiSo graduates are highly-sought after by employers for their practical knowledge and experience. But the same practical skills are also the perfect basis for students to start their own company. WiSo and several partner organizations in the Nuremberg Metropolitan Region offer programs and initiatives for start-ups and entrepreneurs.

DISCOVER NUREMBERG

gram at WiSo, graduates often ask themselves what's next. A career in research? Starting out at a regional or global company? The direct practical relevance of WiSo programs and close partnerships with industry offer the best opportunities for launching a grad-

28

STUDYING 2021/2022

grounding for graduates to start their own company. Graduates with ambition and entrepreneurial spirit can count on a wide range of support. The following list covers institutions, programs and initiatives that the university has either set up itself for founders and young entrepreneurs or in which it is significantly in-

uate career. But they are also a strong

# UNIVERSITY PROGRAMS AND **COLLABORATIVE PROJECTS**

## FAU Start-up Service

The FAU Start-Up Service advises and accompanies founders at FAU from the initial idea to market entry. The start-up service offers all students free advice, help with applications for grants & funding, as well as competitions and other events.

- $\checkmark$ zuv-gruenderbuero@fau.de

# EXISTENCY

'Existency' is the new platform for entrepreneurs from universities and research institutions in the Middle Franconia region. In this joint project, FAU, TH Nürnberg and Ansbach University of Applied Sciences support academic start-ups in successfully implementing their business idea, ZOLLHOF Tech Incubator and the Center for Electronics Systems are partners of the Existency platform.

- ✓ existency@fau.de
- www.existency.de

## FAU Digital Tech Academy

The FAU Digital Tech Academy is the interdisciplinary hub for digitalization and entrepreneurship at FAU. Here, students can acquire methodological knowledge and practical experience for realizing digital innovations. Once a year, the interdisciplinary and extracurricular FAU Digital Tech Fellows Program selects 20 hand-picked talents to become 'digital changemakers'. The selected students and doctoral candidates work on digital start-up projects in a business design sprint lasting 12 weeks. The DTA also offers events and workshops on the topics of entrepreneurship, digitalization and innovation.

## 5-euro business

Starting a business with a capital of just five euros in one semester might sound tricky but that's exactly what students from different subjects do in the 5-euro business competition. The teams are accompanied by executives from local companies and benefit from expertise in marketing, project management and law in seminars. During the finals, the student teams present their work and compete for the top places at their university or college. erlangen-nuernberg@5-euro-business.de  $\bigtriangledown$

# SUPPORT FOR START-UPS FROM **COLLABORATIVE PARTNERS**

## **ZOLLHOF Tech Incubator**

ZOLLHOF is one of the fastest-growing incubators in Germany and has a close partnership with WiSo. It focuses on supporting young technology companies and digital innovators. The 30 teams currently based at ZOLL-HOF can access the infrastructure that a young company needs: cost-effective office space, broadband Internet, cloud access, and much more. A team of 20 experts are also available to advise technology start-ups in programming, design, financing and legal issues. Young entrepreneurs also benefit from contacts to business and industry, research and other start-up initiatives.

- ➢ hello@zollhof.de
- www.zollhof.de

## JOSEPHS® Innovation Lab

FAU and Fraunhofer IIS have created a unique innovation laboratory with JOSEPHS® in the center of Nuremberg where companies can invite visitors to test their services or products. In this way, companies can gather direct feedback and suggest how products and services could be developed. This innovative concept of co-creation between developers and users is particularly useful for young companies and start-ups.

- www.josephs-innovation.de

# Founders' Initiative Middle Franconia

WiSo and the Nuremberg Chamber of Commerce work together closely and their collaborations include an agreement for cooperative degree programs. The Chamber also supports young graduates who want to launch their own business idea. In 2011, the Chamber of Commerce and other partner organizations. including the ZOLLHOF, launched the start-up initiative Founders' Initiative Middle Franconia, which advises entrepreneurs and arranges loans.

# **ENTREPRENEURIAL CULTURE AT WISO**

WiSo has seeded many well-known business start-ups. Perhaps most famous and among the first is the Gfk Society for Consumer Research, which was founded in 1934 by Wilhelm Vershofen and is today the largest market research institute in Germany. DATEV, founded in 1966 by Dr. Heinz Sebiger, who studied business and economics in Nuremberg, is just as wellknown today. The Global Savings Group, an e-commerce partner for leading publishers, and Communication Ads, Germany's fastest-growing start-up, are also the work of WiSo graduates. Other companies associated with WiSo include: ZOLL-HOF, Flixbus, Hotel.de, BISSANTZ, Rödl & Partner, Streetspotr, Amoonic, Ecosia and primoza.

# **EXPLORING** NUREMBERG

Rich in culture, history and art.

# A HISTORICAL PLACE TO STUDY

Although more than 90 percent of the center of Nuremberg was destroyed by bombing at the end of the Second World War, there are still many examples of historical architecture around the city. The magnificent Imperial Castle, which is shown on the city logo, is now more than 900 years old and the historic center still gives an idea of what the city looked like hundreds of years ago. There's a long list of historic sights to visit in Nuremberg, including the city wall, impressive churches and medieval half-timber framed houses.

532.331 (2020)

Bavaria's second largest city

# Economic and industrial hub

Center for trade fairs and expos

# **ARTS AND CULTURE**

The cultural scene of Nuremberg is flourishing and there's always something happening. While art lovers can enjoy visiting the many museums in Nuremberg, the Documentation Center in the south of Nuremberg is an ideal destination for people who are interested in history, offering a comprehensive impression of the National Socialist regime and the history of the Nuremberg Rallies. Concerts are held frequently at the Meistersingerhalle, Frankenhalle and Tafelhalle. The opera house, the theater, open air concerts, galleries and workshops are also part of Nuremberg's extensive cultural program.

The cultural diversity of the city is particularly reflected in upcoming districts such as Gostenhof, which many affectionately call "GoHo". The district has something out of the ordinary for every taste from gourmet restaurants to friendly pubs and from vintage to designer shops.

STATE THEATER

STUDYING 2021/2022

Sports enthusiasts are spoilt for choice in Nuremberg at any time of the year. In the summer, sports facilities, swimming pools, parks and lakes are ideal for hiking, swimming and relaxing in the sunshine.

Wöhrder Wiese is a popular park to visit for

jogging, cycling, yoga and slacklining. When the weather gets colder, frozen lakes, toboggan runs and bouldering halls are perfect places for staying fit. There are also plenty of indoor fitness studios in the city center for enjoying sport in winter. Nuremberg has around 300 regional sports clubs with many sports courses to choose from. FAU's University Sports courses are often a more costeffective way of taking up a sport.

And for those who would rather cheer others on, there are many professional teams in Nuremberg that are worth seeing in action.

# **POPULAR LOCATIONS**

- City center
- Dutzendteich
- Swimming pools
- Parks (Wöhrder Wiese, Stadtpark)
- Bouldering halls
- Fitness studios
- ...and many more!

# LOCAL TEAMS

- FC Nürnberg (Football)
- Ice Tigers (Ice hockey)
- Nürnberg Falcons BC (Basketball)
- ...and many more!

# NIGHTLIFE AND ENTERTAINMENT

Nuremberg comes to life at night. From small, cosy bars to trendy clubs, popular locations attract visitors to the city center at night. There is a dance floor for everyone: Shimanski for pop, Hinz and Kunz for hip hop or Stereo for indie. Slightly further away from the center, clubs like Z-Bau and Rakete are for the techno and electronica lovers. Fogón is popular for its Latin music.

If that still doesn't sound good and dancing isn't on the cards, the Wanderer bar in the city center is a good place to start. It has a great selection of local beers in summer and spectacular views over the historic center. Rote Bar with its fresh, contemporary flair and flamboyant cocktails has also become a regular fixture of a night out in Nuremberg.

STUDYING 2021/2022

# LIVING IN NUREMBERG

The first challenge that most students face is finding somewhere to live, rather than studying itself.

STUDYING 2021/2022

ments are often a popular alternative to going it alone. A good time to look for somewhere to live is at the end of the lecture period or the end of the semester. This is when many students who are graduating and moving on are looking for new tenants to take on their apartments or rooms. You can find ads on notice boards in university buildings, in newspapers and online. Some also get lucky by putting up their own accommodation wanted ad. It's always worth visiting the Student Services accommodation team early on, who also manage the student accommodation at FAU. Nuremberg's student accommodation is not only close to the campus, it is also suitable for student budgets. Rooms in student accommodation are usually significantly cheaper than comparable rooms on the commercial market thanks to state funding. And just like in a shared apartment, no one needs to feel alone or be bored in the student accommodation as they are sure to find neighbors who are the same age, sociable and have similar interests. It is worth noting that it can take months to secure a place in student accommodation. After finding a place to live, students must notify the registration authorities within the first week after moving in.

Student accommodation or shared apart-

# WISO A-Z

With many new concepts, services and programs to get used to, unfamiliar language can guickly become overwhelming for new students. The following glossary explains important concepts related to studying at WiSo - from A as in alumni association to Z as in Zoom.

# ACCOMMODATION

Student Services Erlangen-Nürnberg is a useful contact for questions regarding accommodation. Student Services website:

www.werkswelt.de

# ACCREDITATION

STUDYING 2021/2022

FURTHER INFORMATION

The quality of teaching at WiSo is assured by guality management procedures at the School and university level which have been verified by an external quality assurance body. All Bachelor's and Master's programs are accredited.

www.gm.wiso.fau.de/akkreditierung

# **ALUMNI ASSOCIATION**

Anyone who would like to connect with alumni during and after their studies and support WiSo may become a member of the association Alumni & Freunde WiSo Nürnberg e.V. Memberships are free of charge for students and graduates for up to one year after completing their studies.

www.afwn.de

# APP

The FAU App combines information on all areas of student life at FAU such as online news, the UnivIS study plan generator, room finder or the menus for campus restaurants in one convenient app.

www.fau.eu/fau-app

# BAFÖG

Information on BAFÖG student finance can be obtained from the Amt für Ausbildungsförderung, Andreij-Sakharov-Platz 1, 90403 Nuremberg, or online:

www.bafög.de

# BLOG

Read the latest news and information on what's happening at WiSo on our blog. www.blog.wiso.fau.de

# BROCHURES

WiSo brochures can be collected from the Information Desk at Lange Gasse. Brochures such as this study guide or the information brochure on studying Master's programs are available free of charge. The information desk is located at Lange Gasse 20 on level 1, opposite the mailroom. The brochures are also available online.

www.wiso.fau.eu/media/

# **BROWN BAG TALK**

An event organized by the Career Service, where professionals are invited to talk to students about their work with snacks provided in a brown paper bag.

()www.career.wiso.fau.de/ brown-bag-talks

# CAREER DAY

The Career Day is an information day about starting a career and applying for a job. It takes place annually in the summer semester and students can take part in exciting seminars, application training, CV checks, a career lounge and a company fair, where regional employers introduce themselves.

www.career.wiso.fau.de/career-day

# **CAREER SERVICE**

The Career Service at WiSo provides information and advice on questions relating to applying for a job and starting a career. With seminars and workshops, information events and individual consultations, the Career Service helps students to develop their skills and focus on their professional goals. Our mentoring programs allow Bachelor's and Master's students to make contact with companies during their studies and gain practical experience.

www.career.wiso.fau.de

# **CERTIFICATE**/ **FINAL ACADEMIC RECORD**

The degree certificate and the final academic record must be requested from the Examinations Office. The form for requesting these graduation documents is available on the Examinations Office website.

# CHE RANKING

The Centre for Higher Education Development (CHE) conducts surveys every three years among students and employees of universities and higher education institutions in Germany. CHE uses these surveys to compile rankings for university research and teaching. The CHE ranking is highly regarded and is of particular importance to employers. WiSo is therefore continuously working to improve its position and has already implemented a number of measures based on the ranking results. Further information on the CHE ranking and the measures implemented:

www.wiso.fau.de/che 

# CONTACT PERSONS

Contact persons, opening hours and details for getting in touch with services, such as the Student Advice and Career Service, are available on this web page:

www.wiso.fau.eu/contact

# CORONAVIRUS INFORMATION

The coronavirus pandemic has had an impact on all areas of university life at FAU. To keep all students and staff informed, FAU maintains a coronavirus information website which is reqularly updated and organized into helpful topics:

www.fau.eu/corona

# COPYING

Almost all libraries at FAU are equipped with copying machines. In addition, there is a copy shop at Lange Gasse 20 on level 0. Students pay with their FAUcard.

# COURSE CATALOG

All lectures, exercises, seminars and tutorials are listed in the course catalog.

www.vorlesungsverzeichnis.fau.de

# CULTURE AND LEISURE

Information on cultural events and things to do in Nuremberg:

www.wiso.fau.eu/ studying-in-nuremberg

# DATA EXCHANGE USING THE FAUBOX

With the FAUbox, the Erlangen Regional Computer Centre (RRZE) offers all FAU staff and students 50 gigabytes of free storage on RRZE's servers. Users can synchronize their data easily via app, desktop or web client. All FAU members need to log in is their IdM username and password. One of the main advantages of the FAUbox is that it has a higher level of security than comparable online services.

https://faubox.rrze.uni-erlangen.de/ login

# DEAN OF STUDIES

The Dean of Studies at WiSo is responsible for all questions relating to studies and teaching, in particular for ensuring quality and strategic development. The Dean of Studies also acts as a mediator between students and the university management.

ECTS (European Credit Transfer and Accumu-

lation System) ensures that student achieve-

ments can be compared and recognized

ECTS credits to indicate the workload re-

quired in class and self-study. A single ECTS

credit corresponds to a workload of 30 hours.

# ► ECTS

152

STUDYING 2021/2022

# across Europe. Each module is assigned

2

# **E-LEARNING**

The digital era is also transforming education. Electronic resources will continue to gain importance. There are a variety of e-learning systems in place at FAU. These range from electronic distribution of learning materials to extensive online courses with virtual exercises, forums or online examinations.

# FACEBOOK

WiSo is also on Facebook, where you can find current news, event tips and photos of all events at the School.

f www.facebook.com/fau.wiso

# FOUNDATIONS

For a list of all foundations which also offer programs/scholarships for students visit:

www.fau.eu/foundations

# FUNDING FOR GIFTED STUDENTS AND SCHOLARSHIPS

Information on potential funding may be found under the following link:

www.stmwk.bayern.de/studenten/ foerderung-und-stipendien/ begabtenfoerderung.html

# HALL OF FAME

The School of Business, Economics and Society in Nuremberg has educated many successful and famous alumni. Some are featured in the Hall of Fame. A tradition of smart minds: 
www.wiso.fau.eu/hall-of-fame

# HIWI

The German abbreviation "HiWi" means students assistants that are employed by the university. Student assistants take on supporting tasks at chairs and other university institutions.

# (

# IDM

IdM, short for 'Identity Management', is the central user management system at FAU, and the IdM portal is the first point of contact for managing your digital identity. Your IdM user account is used to access various web services at FAU, such as StudOn or mein campus. Logging on to the IdM portal allows you to view your own user data and information about your degree program. First semester students have to activate their user ID – which is on the information sheet from the Student Records Office and their FAUcard – via the IdM website:

www.idm.uni-erlangen.de

# IMPORTANT DATES AND RSS FEED

All important dates are available online at:

www.wiso.fau.eu/event

# **INFOTHEK**

Students can find quick answers to general study-related questions at the Information Desk. It is staffed by students for students and is located at Lange Gasse 20 on Level 1, directly opposite the mail room. Current brochures and flyers are also available at the information desk.

www.infothek.wiso.fau.de

# INSTAGRAM

WiSo is also on Instagram: @ @wiso\_nuernberg

# INSTITUTES AND CHAIRS

There are eight institutes and over 35 chairs at the School of Business, Economics and Society.

www.wiso.fau.eu/ institutes-and-chairs

# INTERNATIONAL OFFICE

The International Office is a central point of contact for students, teaching staff and researchers for information on international mobility. The small international library (Lange Gasse 20, Room 2.231) offers a wealth of information on studying abroad, internships, language courses, funding opportunities and intercultural learning. The team can help with any questions and concerns related to international study and mobility.

www.ib.wiso.fau.de/en

- via the

JOBS

Find the student job you're looking for. The Stellenwerk job website lists student jobs, internships and entry-level career opportunities. Positions are suitable for both students and graduates.

www.stellenwerk-fau.de

# **KEY QUALIFICATIONS**

While regular modules are focused on knowledge and skills in a specific subject, students can acquire interdisciplinary skills in key qualification modules. In this way, students can acquire valuable skills for work and study, become familiar with scientific work, learn a foreign language or other practical skills. Further information:

www.qm.wiso.fau.de/ schluesselqualifikation

# LABORATORY FOR EXPERIMENTAL RESEARCH NUREMBERG (LERN)

The Laboratory for Experimental Research Nuremberg (LERN) is used by WiSo researchers for experiments in economics. The laboratory enables experiments in large groups for analyzing the behavior of economic agents. Students of all disciplines and other interested parties can register for participation in the economic experiments. Participants receive appropriate compensation for their time. The laboratory is located at Lange Gasse 20 from Rooms 2.120 to 2.122.

www.lern.wiso.fau.de

G

# LANGUAGE COURSES

# LECTURE

Lectures are held during the semester. Normally, lectures are not held on Saturdays, but examinations and special events may be held at this time.

# LECTURE-ON-DEMAND

WiSo offers digital lecture recordings for e-learning. Selected lectures are filmed and then published along with all media used during the lecture, such as presentation slides, information written on the blackboard, videos and document camera images. WiSo students can access this material through the lecture-on-demand video portal: www.lectureondemand.de

STUDYING 2021/2022

FURTHER INFORMATION

# LIBRARY

The Economics and Social Sciences Branch Library at Lange Gasse is open from morning to night, Monday to Saturday, and also offers space to study on Sundays. All important information, for example on opening hours or the library catalog, can be found at: www.ub.fau.de/en

# **LOCATIONS**

The School of Business, Economics and Society has two locations in the historical center of Nuremberg: Findelgasse 7/9 (FG) und Lange Gasse 20 (LG). In addition, two new, smaller locations are based in the west of the city at the former AEG site and the Nuremberg Campus of Technology (NCT).

# MAIL

At FAU each student receives their own e-mail address after activating their student user ID in IdM. You can access your mailbox using web mail with e-mail programs like Outlook or Thunderbird. If you do not want to use this as your main e-mail account, you can also change the settings to have your e-mails forwarded to another address.

https://faumail.fau.de

# MEIN CAMPUS

mein campus provides online access to services offered by the Student Records Office and the Examinations Office. It includes features for registering for modules and examinations. You can also use mein campus to manage your personal details, register for examinations and obtain an overview of your grades. You can also print out your official documents and certificate of enrollment via mein campus.

www.campus.uni-erlangen.de

# MENSA (CAMPUS RESTAURANTS)

Students and university staff can have lunch on weekdays at the Mensa on Andrey-Sakharov Square. Students pay with their FAUcard. The Mensa and the cafeteria also offer drinks and snacks at lunchtime. During the semester, the cafeteria at Lange Gasse offers sandwiches, drinks and small snacks, and fresh coffee is available from the espresso bar. Further information on opening hours and the current menu is given on the Studentenwerk website:

## www.werkswelt.de

Students can also get something for lunch at the Trichter café in the Findelgasse building, which is run by students. Snacks are also available from vending machines. In the Lange Gasse building the vending machines are located on level 1, opposite the staircase to the library. In the Findelgasse building, the vending machines are located to the right of the main entrance in the room next to the cloakroom.

# MENTORING PROGRAM FOR NEW STUDENTS

In many situations, getting started is easier if you have some support, and starting at university is no exception. Existing students at the School of Business, Economics and Society act as mentors for newcomers and are available to answer questions and help you with any problems when you start your studies, help you create a network and maybe even help you make new friends. More information is provided during the simulation games and also available via e-mail from the organization team.

# www.wiso.fau.eu/mentoring-program-for-new-students

# MODULES

A module is one of the separate parts of a program taught at university which focuses on a specific topic. For example, in the first semester of the Bachelor's program, students study issues facing companies and entrepreneurs. The lecture and tutorial on this subject are part of the module "Entrepreneurs and Businesses". Each completed module is indicated on the student's final academic record.

# MODULE HANDBOOK

What content is covered by the module? What do I need to know before taking a module? Is there an oral examination or written examination at the end of the module? All this information can be found in the module handbook. Information on specialization areas is also given in the module handbook. The module handbook is indispensable for planning your studies. Module handbooks for Bachelor's and Master's programs are published on the WiSo website:

www.wiso.fau.de/modulhandbuecher

# QUALITY CIRCLE

In the Quality Circle, students discuss their ideas and feedback on a degree program with the program manager. The Quality Circle is intended to identify potential areas for improvement from current studying conditions (What problems are currently occurring? Are there any suggestions for solutions or improvements?). Find out more about getting involved: **www.qm.wiso.fau.de/gremien**

STUDYING 2021/2022

FURTHER INFORMATION

# **SCHEDULE**

Students can create their own schedule using the online course catalog in UnivIS. By selecting "Lecture list" from the search bar you can find courses by title and chair. UnivIS often displays multiple time slots per week for exercises and tutorials. These are parallel courses, you only need to attend a course at one of these times. For help on creating your schedule visit:

www.wiso.fau.eu/schedule

# SCHOOL ADMINISTRATION

The School Administration is the central point of contact for administrative matters at WiSo. It supports the School Board in its wide range of tasks, including advising committees, administering the budget, allocating rooms, managing staff and organizing academic affairs. The School Administration offices are located in the Findelgasse 7/9 building. Information and contact persons for all matters relating to the School Administration:

# SCHOOL OF BUSINESS, ECONOMICS AND SOCIETY

The School of Business, Economics and Society at the Faculty of Business, Economics, and Law goes back to the Nuremberg Commercial College, which was founded in 1918 and began teaching students in 1919. In 1961, the Nuremberg Commercial College was integrated into FAU as the Faculty of Economics and Social Science (Wirtschafts- und Sozialwissenschaftliche Fakultät, WiSo). It is now known as the School of Business, Economics and Society. All information about WiSo research and teaching, institutions, contact persons and opening hours is available online:

## SEMESTER TICKET

The basic semester ticket costs  $\notin$  75 and entitles students to travel Mon. – Fri. from 7 pm to 6 am, Fri. from 6 pm and throughout the weekend. An extended ticket costs  $\notin$ 207 and is valid for travel at any time. Both tickets are valid throughout the VGN area.

🚯 www.vgn.de/en

# SOFTWARE TRAINING

University life is easier with the right IT skills. RRZE offers software training for students and staff at FAU at reasonable prices. Training sessions are available in Erlangen and Nuremberg. For the complete course program and further information on signing up for a course visit:

## www.kurse.rrze.fau.de

## SPORT

Aikido, basketball, TaeBo, Taekwondo, kayaking and canoeing, sailing and many other sports are offered by University Sports at FAU for students to switch off from academic life. Please make sure you sign up early to avoid disappointment.

www.hochschulsport.fau.de

# STUDENT ADVICE AND CAREER SERVICE

The Student Advice and Career Service (IBZ) provides information on all organizational aspects of studying at FAU, such as admission

requirements and application procedures. It also offers advice on changing or withdrawing from degree programs and similar topics. Contact persons and office hours:

# www.wiso.fau.eu/student-advice

Subject advisors can help you with questions about the content of a specific degree program. The contact persons for Bachelor's and Master's programs at WiSo are listed on the following page:

www.wiso.fau.eu/

## study-advice-for-specific-subjects

## STUDENT ID CARD

The FAUcard is a student ID card, copy card and it can also be used to pay at the cafeterias and student restaurants. You can put credit on your card using the machines in the restaurants and cafeterias and the copy shop. The FAUcard is also your library card. Students must always update their FAUcard each semester at one of the validation stations. Two validation stations are currently available at Lange Gasse 20 on level 0 and level 1. Payment terminals are located at Lange Gasse 20, in the library, the cafeteria and in the cafeteria at Andrei Sakharov Square.

# STUDENT RECORDS OFFICE

FAU's Student Records Office is responsible for enrollment, de-registration and changing of subjects/program. It is also the first point of contact for all questions on semester registration (Rückmeldung), semester fees, and leave (Beurlaubung). The Student Records Office is based in Erlangen in Halbmondstraße 6-8, Room 0.034.

www.fau.eu/student-records-office

## **STUDENT SERVICES**

Student Services Erlangen-Nürnberg operates all cafeterias and restaurants at the university as well as childcare facilities and is the contact point for many other questions on accommodation and life at university.

www.werkswelt.de

# **STUDENT SURVEY**

Each year in January, students at WiSo are asked to participate in an online student survey. It is worth taking part as the results are taken seriously and you also have a chance of winning attractive prizes. The last survey results are published on this website:

www.soziologie.wiso.fau.de/ forschung/projektberichte

# STUDENTS' REPRESENTATIVES AND STUDENTS INITIATIVES

An overview of student representatives and initiatives at the School of Business, Economics and Society:

www.wiso.fau.eu/ student-organizations

# STUDON

StudOn is FAU's platform for online learning and course management. Students can register for courses via StudOn and access or store seminar handouts, reading lists and general information. StudOn also allows direct exchange between students and lecturers in forums, chats and Wikis. StudOn is also used for online examinations. Students can log in with their FAU user account.

www.studon.fau.de

# STUDYING ABROAD

General information on studying abroad is always available at the beginning of November at the "International Day" organized by the WiSo International Office. Applications for study places abroad can be submitted until mid-December. The International Office can answer any questions about studying abroad. www.ib.wiso.fau.de/en

# STUDY PLAN

The study plan is an overview of all modules that students need to complete in a degree program. Study plans also recommend which modules should be taken in specific semesters. Students can find a study plan for their program in the degree program and examination regulations as well as in the module handbook.

# **STUDY SPACES**

58

STUDYING 2021/2022

WiSo has study spaces and group study spaces for independent study or studying in groups. The library has a large number of study spaces. In the basement at Findelgasse there are group study rooms with projectors that can be booked in advance. The Information Desk can provide further information on the availability and opening times of group study rooms.

## www.infothek.rw.fau.de

SWS (SEMESTER HOURS)

Semester hours (SWS) specify the workload that is required per week in units of 45 minutes (especially for lectures, tutorials and seminars).

# **TEACHING EVALUATION**

Teaching evaluation at WiSo aims to assess the quality of teaching and to implement a continuous improvement process based on the results. The teaching evaluation results can be found here:

www.qm.wiso.fau.de/ evaluationsergebnisse

## TUTORIAL

Most chairs at WiSo offer tutorials which are taught by research staff to accompany lectures. In these tutorials, the contents of lectures are discussed in greater detail through specific examples and case studies. Tutorials are usually offered several times a week, so you can choose a suitable time. Some chairs require students to register for the session they would like to attend. If registration is required, the chair will provide further details on their website.

# TUTORIALS BY STUDENTS

Tutorials by students from higher semesters are held alongside lectures and provide the opportunity for students to repeat, deepen and practice content from the lectures.

# UNIVIS

The University Information System (UnivIS) provides comprehensive information on courses, contact persons and services: www.univis.fau.de 

# VIRTUAL SEMESTER

WiSo developed the WiSo Virtuell concept in response to the coronavirus pandemic. This ensured that students could still study at WiSo during this difficult time, even if it meant adapting to the new situation. WiSo Virtuell then evolved into WiSo Virtuell Plus for summer semester 2021, in line with our hybrid teaching concept. Our aim is to ensure that students can continue to study, whilst also exploiting the opportunities for transformation now available to us.

www.wiso-virtuell.fau.eu

# WI-FI

Free Wi-Fi is available in the Lange Gasse and Findelgasse buildings. Students can access the service using their IdM user account, which is also used for logging on to other university services such as StudOn and mein campus.

# FURTHER INFORMATION

# WISO COACH PROGRAM

This is a mentoring program organized by the Career Service and the WiSo alumni association, in which WiSo graduates offer Master's students their professional experience as mentors. In addition to providing tips on starting a career and career planning, mentors also support students with personal development. The application period starts at the beginning of the summer semester.

WOMEN'S REPRESENTATIVES

Prof. Dr. Martina Steul-Fischer is the women's

representative at the Faculty of Business, Eco-

nomics and Law. The Office of Women's Ad-

vancement (Lange Gasse 20, Room 5.121)

can help students and academic staff with any

AND OFFICE OF WOMEN'S

**ADVANCEMENT** 

questions and concerns relating to equality and career advancement. All information on the work of the women's representatives and funding programs for female students and academic staff is given on the website:

www.frauenbeauftragte.rw.fau.de

# Z

# ZOOM

Since the summer semester 2020, the online service Zoom has been available at WiSo for conducting video conferences, online seminars and live online lectures. Students can access Zoom meetings from any location and from different devices and platforms.

# Digital Tech Fellows

# **Educating digital changemakers!**

The Digital Tech Fellows Program is a one-semester elite program for entrepreneurial and tech talents at FAU. 25 selected top talents from all faculties and study levels at FAU have the opportunity to work on their own start-up ideas or challenges from corporate partners and experience the entire Business Design process, an agile innovation management approach to develop a new and validated digital business model.

# The students will learn hands-on knowledge covering topics such as:

- Ideation & Design Thinking
- Business Model Design
- Prototyping & Validation
- Innovation Tools & Methods
